

GOWTHAM G

Full Stack Developer

Tiruppur, Tamil Nadu | +91 93452 77643 | gowthamids06@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer building real-world, scalable applications using Python, FastAPI, Django, and React. Developed systems including a rule-based workflow engine and an AI-powered expense approval platform with OCR and multi-level processing. Strong in API design, state-driven architectures, and translating business processes into production-ready software.

TECHNICAL SKILLS

Languages: Python, JavaScript

Backend: FastAPI, Django, REST APIs

Tools: Git, Postman, Selenium, JMeter

Frontend: React, HTML5, CSS3

Databases: MySQL, MongoDB, SQLite, PostgreSQL

Concepts: API Design, Computer Networks

PROJECTS

AI-Powered Expense Bill Approval System

Full-stack bill processing and multi-level approval platform

- Built end-to-end system using Django (backend) and React (frontend) supporting complete bill lifecycle management
- Integrated Pytesseract OCR to auto-extract and categorize data from uploaded bill images, reducing manual entry
- Designed role-based, amount-driven approval routing — bills routed to different approvers based on configurable thresholds
- Built audit log and analytics dashboard using Chart.js to track expense trends and approval turnaround times

Tech: Python, Django, React, SQLite, Pytesseract, Chart.js

Workflow Automation Engine

Rule-based process automation engine with live deployment

- Architected a workflow engine enabling dynamic, rule-driven process automation without code changes
- Implemented a state machine with support for conditional branching, multi-step approvals, retry logic, and failure handling
- Built a rule engine for input-based conditional routing, making workflows configurable via UI rather than hardcoded logic
- Added structured audit logging for full execution traceability and transparent decision history

Tech: Python, FastAPI, React, SQLAlchemy, SQLite, PostgreSQL

Live Demo: deploy-check-workflow.vercel.app

CERTIFICATIONS & ACHIEVEMENTS

- **Computer Networks and Internet Protocols** — NPTEL – IIT Kharagpur
- **Frontend Web Development** — Infosys Springboard
- **Agile Project Management** — HP LIFE
- **Hackathon Participant** — SNS College of Technology, 2025

EDUCATION

B.Tech – Artificial Intelligence & Data Science

Erode Sengunthar Engineering College, Erode, Tamil Nadu

Sep 2023 – Present

Higher Secondary – Computer Science & Mathematics

Sri Ramakrishna Vidyalaya Matric. Hr. Sec. School, Tiruppur, Tamil Nadu

Aug 2021 – Apr 2023
